

PORTABLE.HANDHELD.IMPULSE.SEALER

IPS Series (Impulse Type)

The IPS Series is a portable welding clamp used for sealing LDPE, HDPE, PP, aluminum, nylon, laminated film bags / sacks and other thin films. This device is designed with a small or compact size and is a light-weighted device that results to a more easy carriage. The HP Series is available in 3 sizes that are IPS-300, IPS-450 and IPS-600. These devices has a seal length ranging from 300 mm up to 600 mm and has a seal width of 5 mm.

Standard Features:

- Adjustable impulse sealing time.
- Sealing time is shown by lighting indicator.
- Bi-active impulse sealing design (both seal jaws heating type).
- Teflon sheet insulation to prevent plastic sticking on seal jaws.
- Separate power supply unit (impulse controller).
- Connection cables of 3m.
- Compact & light weight design for easy mobile operation.
- Plier type design for perfect grip, fits snug in the hand.

Applications:

- Large Size Equipment Repacking
- Extend storage period for packed goods.
- Suitable to seal major laminated films, aluminum foil, nylon laminated film and paper composite film.
